CONNECTING LEADERS

We are an official CoE State Chapter providing membership and professional development to school district leaders. [Click here](#) to learn more.

Winter Newsletter

Note from the President

Happy New Year to our IETL members! While it's already February we are welcoming the new year by realigning our future strategic plan goals with our mission and vision. IETL will continue to follow its mission of "Empowering Illinois education leaders to leverage technology to transform student learning" by crafting goals that fulfill the needs of our members. This work will help guide the offerings we provide and the topics of our workshops and summits. Please give your input in our [survey](#) and/or share your thoughts with our board members.

As you begin your summer tech planning, make sure to save the date for our 2019 CTO Summit. I am pleased to announce that this year's CTO summit will take place on June 13th at Guaranteed Rate Field (that's the old Comiskey Park) with the summit during the day followed by a game between the White Sox and Yankees that evening. Please take a look below for the registration link. This event is currently open to IETL members only but will be open to other Illinois CTO's starting in March. Please register early as this event will fill up fast!

Nancy
